

Amendments To The Claims

1-3 (Cancelled)

4. (Original) A method for treating wasting in a mammal, comprising administering to the mammal an effective amount of a composition comprising cis-clomiphene and trans-clomiphene or analogs thereof or pharmaceutically acceptable salts or solvates thereof and optionally one or more pharmaceutically acceptable diluents, adjuvants, carriers or excipients, wherein the ratio of trans-clomiphene to cis-clomiphene is greater than 71/29.

5-9 (Cancelled)

10. (Presently Amended) The method of ~~any one of claims 4-9~~ claim 4 wherein the composition consists essentially of an effective amount of trans-clomiphene or an analog thereof or a pharmaceutically effective salt or solvate thereof and optionally one or more pharmaceutically acceptable diluents, adjuvants, carriers or excipients.

11. (Original) The method of claim 10, wherein the mammal is a human.

12. (Presently Amended) The method of claim 11 wherein the human is infected with HIV.

13. (Presently Amended) The method of ~~any one of claims 4-9~~ claim 4 where the mammal is a human.

14. (Presently Amended) The methods of claim 13 wherein the human is infected with HIV.

15. (New) The method of claim 4, wherein the composition comprises a dosage of 1-200 mg of trans-clomiphene per day.

16. (New) The method of claim 15, wherein the composition comprises a dosage of 50 mg of trans-clomiphene per day.

17. (New) The method of claim 11, wherein the composition is administered in a dosage of 1.5 mg/kg of trans-clomiphene per day.

18. (New) The method of claim 10, wherein the composition consists essentially of 12.5 mg of trans-clomiphene or a pharmaceutically effective salt or solvate thereof.

19. (New) The method of claim 4 wherein the composition is a capsule.
